Brief Description of Ministry: Our primary ministry is pastoring the Esztergom Baptist Church, which we started in 1995. I also head up the Esztergom Baptist Bible Institute, which we started in 2004. We currently have about 15 students in our Bible Institute.

Current Ministry Goals: We would like to see our church in Esztergom serve as a pattern for other Hungarian churches. We want to encourage churches in Hungary in the areas of evangelism, missions and healthy church life, and influence pastors and leader in Hungary through conferences, training events, mentoring and writing. We also want to participate in future church planting projects by both direct involvement and by providing support and encouragement to national church planters.

Urgent or Ongoing Prayer Request: Our church in Esztergom needs to see new growth- especially with young couples. We are also praying for more doors and opportunities to be available in Hungary that we can possible go through. Please pray that the Lord would give wisdom as to how best to invest my time and energy to have the greatest impact on building His kingdom here in Hungary.
